

Opening remarks:

In 2022 the DRG symposium will be held as a part of the emergenCITY week, the annual conference of the LOEWE center emergenCITY. More than 20 PI's of the universities of Darmstadt, Kassel and Marburg are involved in this interdisciplinary research project which is dedicated on exploring the question of designing resilient future digital cities. By bringing together the expertise of both DRG and emergenCITY the 2022 symposium will provide a contemporary and holistic overview on urban resilience.
